

BEST AUTOMATION SOLUTIONS ACROSS LEADING INDUSTRIES

ABOUT US

We at Vigital are engaged in solution providing for different logics, 'Poka Yoke' - our strength, is our in-house R & D. We have several leading organisations from diverse field as our regular customers. Our technical staff is strongly dedicated towards pre and post sales support while our marketing team is always ready to answer or provide tips on how to improve energy efficiency. We do extensive market research and develop products which reflect a perfect paradigm of technology and innovation. We give priority towards our customer satisfaction and always strive to develop product with high quality within given frame of time.

Working towards Industry 4.0 in order to ensure efficient processes throughout the factory machines so that operator can quickly and easily determine the status of the machine. Greater the visibility, the easier is to identify and resolve problems and keep operations running smoothly. Vigital is working towards solving the pain areas which client is facing Challenges like wash down areas, harsh environment, safety of man and machine.

Taking 'Best Engineering Solutions' as our starting point, we at Vigital India are constantly involved in the development of daring and positive business activities. Looking for the NEW NEXT it is our aim to provide our customers with the best in cutting edge solutions. Our main aim is to grow as a top class specialized technology Trading Company that provides 'Top Class Products' incorporating the most innovative technology with excellent co-ordination skills and global support system

Vigital Product line includes Sensors, Limit Switches, Flame Safeguard Controllers, Modular Motors, Fiber Sensors, Laser Sensors, Power Supplies, Safety Switches etc.

In addition to product selling our Engineering team looks into the core of the customer requirement so that customer get whole solution from one source only. We are working hard to make a significant contribution to our customer research by providing complete solution in a bold and timely manner. We at Vigital are dedicated to introduce most advanced products in the field of instrumentation to our valued customers.

SENSORS

SIGNAL LIGHTS

DRIVE, PLC, HMI

VIBRATION MONITORING SENSORS

THERMOCOUPLES

LEVEL SENSORS

PRESSURE SENSORS

POWER SUPPLIES

LINEAR TRANSDUCERS

Control

Control devices and equipment for optimum performance

Measure

Measure changes in temperature and pressure of the objects being controlled

Operate

Operate the plant with gases and liquids at optimal temperatures and flow rates

Connect

Connect products via a communications system

Set

Easily set the parameters of various products

Record

Real-time display, recording, and storage of acquired information

FURTHER OPTIMIZATION OF ANY MANUFACTURING SITE

We help you manufacture your products safely and efficiently by creating plants in which you can carry out your operation with ease.

We will use our wealth of know-how based on our many years of experience and new technology development to create optimally automated systems for any manufacturing site regardless of size or type. From measurement to control and management, we will increase the value of your products and services in any situation.
